The screenshot shows the Adobe GoLive interface for editing a news frontpage. The main content area features a large image of a duck, with the headline "Ducky takes 1st prize". Below the image, a text block reads: "The ImageReady rubber ducky has surprised everyone, including its creators, by taking first prize in a local duck beauty pageant." To the left of the main content is a sidebar with a "CNN interactive" logo and a list of categories: World, US, Local, Politics, Weather, Business, Sports, and Entertainment. To the right of the main content is a "In other news:" section with several short news items, including "Local designer declares yellow passage", "Is synthetic rubber the latest trend?", "Kidnappers foiled in plot to nab ducky", "Hordes of six year olds pack airport awaiting ducky's triumphant return", "Geese making angry noises about rigged judging", and "Eating duck a la orange without feeling guilty". The top of the page has a banner with "get the news when you log on", "Headline NEWS and BEST BUY", and "want to give you time 170". The right side of the interface shows a "Content Sources" panel with "Bind To" and "Link To" options, both set to "Story Information". The bottom of the screen shows a Windows taskbar with various open applications and the time 2:59 PM.
